TEN MILLION DOLLARS TO BE SPENT IN GREENE COUNTY COAL

Big Steel Company Likely Purchasers of Large Tracts Along the River

THOMPSON TO BENEFIT

Millionaire Coal Dealer of Uniontown Said to be Interested--Early Development Indicated

Before the first of April deals in Greene county coal lands amounting in the aggregate to about $10,000,000 will probably be concluded. Chief among the buyers will be two immense steel concerns operating in the Pittsburg district. Into the pocket of J. V. Thompson, the millionaire coal dealer of Uniontown it is reported will drop the bulk of the purchase money. The deals will be some of the biggest in the history of Greene county and will mean rapid development. In the various transfers will be represented from 15,000 to 20,000 acres of some of the best coal land in the entire bituminous region.

One monster steel concern whose identity is not to be made known yet, but which has big operations in the Pittsburg district is said to have acquired a coal tract of 2,000 acres at East Riverside in Greene county. The tract is south of the block of 4,200 acres owned by the Crucible Coal company at Rices Landing. Just above the Crucible another steel company has an option on 1,500 acres This is near the river, and there is little doubt among the coal men in closest touch with the situation, but that the deal will be closed for the purchase of it by the first of April. The name of this company is not given out, but like the purchaser of the 2,000 acre tract at East Riverside is said to have monster operations in the Pittsburg district.

Recently the Crucible Coal company purchased 2,000 acres of coal land adjoining their tract already owned at Rices Landing. This is the first of the big operations to be gotten under way in that region. The Crucible coal will be used of course by the Crucible Steel company.

Practically all of the Greene county coal will be for coking purposes. The steel companies are acquiring the land now as a matter of economy. It will not be long until the pirce of Greene county coal goes u panother notch. Coal men say that in time Greene county coal will be selling higher than Fayette county coal ever did and that was at $3,000 an acre.

That Greene county is the coming coke center is the belief of John W. Boileau, expert coal man of Pittsburg. Mr. Boileau gives the following of the Connellsville bed of coal: "Allowing an average increase per annum of 5 per cent in 1930 the 901,000 acres would be entirely exhausted and the 40,000 coke ovens would be idle. Within the next eight years, without any increase at the plants, 79 coking plants will have exhausted

AGED MEN ENGAGE IN ARGUMENT

Octogenerian and "Boy" of Sixty Battle for Rights

COURT HEARS RESULTS

Charles McDonald an aged Midway resident, old soldier and for half a century a fire boss in mines along the Panhandle had many troubles this week.

He was convicted Thursday morning of simple assault and battery and fined $50 and costs. He refused to pay and after being placed in the custody of Sheriff Lutton was served with a capias in a suit for damages for personal injuries brought by Thomas Sneddon of Midway who was the private prosecutor in the assault and battery case. In the civil suit the aged veteran is held in $1,000 bail. He is now in jail.

Mr. Snedden, though his counsel, J. F. McFarland claims $5,000, by reason of the injuries inflicted upon him when Mr. McDonald struck him with the shovel handle on May 11, 1912.

Both defendant and plaintiff are elderly men. Mr. McDonald is 81 years old, while Mr. Snedden celebrated his 63rd birthday on the day he was assaulted by Mr. McDonald.

No other case at the present term has attracted more attention on account of the stand taken by Mr. McDonald, in reusing to pay the fine and costs. He insisted that he was unable to pay the fine and costs. He allowed himself to be taken in charge by Sheriff Lutton. He was placed in the prisoners' room just off the court room. His dinner was taken him there from a restaurant and every consideration shown him on account of his great age.

Mr. McDonald refuses to agree to settle his fine and costs or allow anyone to go his bond for payment.

Six Suspects Apprehended by Detectives on Thursday and Friday Nights--Are Remanded to the County Jail

Six more Italians have been arrested in connection with the killing of Santo Cicero, of Charleroi, and Frank Genoa, of Charleroi, at California on Christmas. At midnight last night Antonia Oglio, Pietro Guida, Onatus Angelo and Dominick Salaccia were arrested at California. LICHT PLACED AT LOCKUP DOOR

When weary wanderers, financially embarrassed, search longingly for a place to cast their tired forms henceforth, they will not be compelled by inexorable fate to travel the length and breadth of the town to locate that hospitable abiding place provided by the borough. Friday night a neat looking, bright light was placed in a commonding position over the doorway of the borough police station. Its starry directions will serve as a guide to shepherds in search of a haven. Chief of Police Albright and Patrolmen Murphy engineered the altogether admirable work of locating the adornment.

SATAN COMING TO THE COYLE MONDAY

One of the greatest moving picture representations that has yet been produced has been booked by Manager R. S. Coyle for Monday and Tuesday of next week. This is "Satan," in five reels which contains more than a hundred beautiful scenes and which cost upwards of $200,000 to produce, after four months continuous work. It is played by the most noted European artists and teaches a great lesson. Satan appears first in the Garden of Eden and passes progressively along from prehistoric times on up to the time of the Savior. He invokes the aid of science later on with its development, and at the last employe modern methods to wreck the lives of women and workers. In this is taught a great sociological lesson. At the Olympic Theatre in Pittsburg recently "Satan" was shown to 14,000 people in one day, so popular was it as an attraction. The matinee begins at 1 o'clock.

Outlet to be Provided for Marianna Region Through Central Part of County

MONONGAHELA'S FINISH

Future of Down River "City" as Railroad Center Not Bright--Rights of Way Agents Busy

Rights of way were taken this week for the first time of the construction of a new railway line to be built between Van Emman station on the Chartiers valley railroad and Marianna. The new line, which it is understood will be built by the Pennsylvania Railroad with the Baltimore and Ohio co-operating, will be to cut off about 40 odd miles in the shipping of coal from the Marianna region. The Ellsworth branch, with the construction of the new road will probably pass much into disuse. Monongahela City's future as a railroad center does not seem bright.

At the present time all the coal from the rich Marianna region goes over the Ellsworth branch to Monongahela and then by the Monongahela Division of the P. R. R. to Pittsburg. The Ellsworth connection forms a very roundabout route. Much time is wasted in shipments over it, and in the transfer at Monongahela. Now the Monongahela Division lines are kept pretty well crowded and will be more than crowded when the rich Greene county coal fields are opened up. This will make it practically impossible for the road to handle expeditiously the coal from both the Mariaan region and the up river points by the Monongahela valley line. It almost looks as though the shorter branch by way of Van Emman station for a Marianna coal outlet is a necessity.

It is understood to be the plan to branch off from Marianna almost directly west with the new road to Hackney Station. Surveys of this projected line were made some time ago. From Hackney Station the line would lead to Wheeling. This would afford a new and quicker route of transportation from Wheeling to Pittsburg. It would open up undeveloped northern Greene county and southern Washington county coal fields.

At the same time it is stated the Baltimore and Ohio railroad is making an effort to secure right of way through a route from the Cheat river that will enter Greene county. Some surprise is manifested at their action in dropping two Pennsylvania railroad men from their directorate. Whether that presages a actual break with the Pennsy is only a guess, yet it is believed to have much significance in the Greene county development.

Violated School Laws.

Joe Morrison and Mike Krutz of Union township were arrested this week and held for a hearng at Monongahela for refusing to send their children to school.

RURAL SOCIAL LIFE.

Those who keep tab on the rural news from over the county that are published from time to time in the columns of the Mail and which are for the most part gleaned from the various exchanges, can hardly fail to be impressed with the active social life in the small rural communities. In church, social, fraternal and civic works some of the small communities are even more active and progressive proportionately than are the large towns, where community interests are sectional and divided.

It has been lack of interest in social life in the past as well as lack of facilities, that made farm and rural life dull and unattractive. This isolated condition, where life was one dreary round of prosaic duties in which the only break was a laborous trip over execrable roads to the nearest business center, weaned young people away from farm life. This effect was so widespread that people flocking to the towns has materially decreased the production of farm and garden products. Interest in farming has declined to such an extent that the cost of living has soared to figures heretofore undreamed of in this country. So widespread has been the exodus from the farm to the town that governmental aid is being invoked to encourage and promote social life in the rural communities with an object in view of making conditions more attractive and life more pleasurable.

In this county with the advent of improved roads, the telephone and the automobile, social conditions have been vastly improved. It has been found that the lecture course, woman's clubs, literary and civic societies can be conducted as profitably as in the more populous centers. Some of the small cross road towns are even paving their streets and organizing boards of trade. Instead of going abroad for pleasure and recreation, the people are promoting these at home. They are having old home celebrations, harvest homes, grange meetings, lectures by experts, corn vegetable and poultry shows, school and religious institutes and everything in advanced social and civic work. Life on the farm is made pleasurable by the co-operation of the people, whose example of mutual unselfish effort might well be emulated in the more populous centers. There are small hamlets in Washington county whose social and civic work proportionately exceeds that of any of the larger towns.

WHY INTERVENTION?

We hear much talk about the United States intervening in the rebellion in Mexico in order to protect American citizens and American intrests. Stress is laid upon the protection for American citizens, but if the real object of the desired intervention is made known, it will be found that it is the "interests" that are making the loudest outcry for protection.

While it is possible that some American citizens may be killed or maltreated while in the zone of the rebellion, this is one of the risks and chances such citizens take, and if there is any uncalled for outrage the Mexican government will undoubtedly make reparation, just as our own country has done in the past. In most instances. American citizens in the troubled zones in Mexico have no difficulty in getting out of the country if they so desire. If they chose to remain they must take the chances and fortunes of war. It is the exploited interests for the most part in Mexico that are demanding intervention by the United States, and thus far there has been no real cause for this country to engage in war with its weaker neighbor, who is exerting every effort to quell the insurrection that has broken out.

PICKED UP IN PASSING

A Washington newspaper says that Judge J. A. McIlvaine was leaving the court house after the adjournment of court one day this week when he was stopped by a foreigner of rather intelligent appearance who expressed a dsire to visit a friend in the county jail.

The man was very insistent about the matter and finally the judge remarked that the proper person to see was the sheriff who was in charge of the jail and who would grant the necessary permission.

"I did see the sheriff," remarked the stranger, "and he wouldn't let me in. I sure would like to see that friend of mine for I want to slip him a little whiskey."

The judge walked on and it is supposed that the foreigner is still wondering at the ways of a supposedly free land where a man cannot give his imprisoned friend a "wee nippy."

Out on one of the rutal routes of the county a story is told of a maiden well advanced in years who used to wait every day for the mail carrier, a bachelor of about her age and ask him if there was not a letter for her. Several weeks passed thus, but the anxiously expected letter did not arrive. Finally one morning the mail carrier said to her: "Well, tomorrow you shall get a letter, if I have to write myself."

"That's right; do it," replied the old maid. "I shall be delighted to accept it."

"Well," said the mail carrier, "what do you want me to write—a business letter or a love letter?"

"If you mean business please write a love letter," was her blushing reply.

AFTER FIVE YEARS

Winthrop Child Was Restored to Health By Vinol.

"Five years ago our little girl had a severe attack of diptheria which left her subject to bronchitis and stomach trouble. She has been almost constantly under medical treatment. I have also tried two or three remedies containing cod liver oil but found her stomach rebelled against the oil. Reading your description of Vinol I decided to try it and did so with most astonishing results. I cannot begin to tell you how she has improved because you do not know what a little suffered she was for five years. She has gained ten pounds since she commenced to take Vinol, and the story of what Vinol has done for her is only half told in this letter." Mrs. Adelaide Mulloy, Winthrop, Mass.

Vinol contains all the healing curative properties of cod liver oil, without the oil and tonic iron added. That is why it helped this little girl after other remedies had failed.

We ask mothers of weak, sickly children to try Vinol on our offer to give back your money if it fails to help them. Piper Bros, Druggists.

EXAMS OVER, REPORTS OUT AT HIGH SCHOOL

Students Preparing Now for Literary Program to be Given February 21--Interesting Happenings Told of

The first of last week the reports were given out, containing the average of four and a half months, or the first semester. In determining the grades the class work counts as two-thirds and the final examination as one-third. In order to pass without a condition it is necessary to obtain a final average of seventy-five per cent in each branch. Since the examinations, the Freshman and Sophomore classes have been redivided, those who have been promoted forming the "A" division, while those who have failed form the "B" division. This latter division will go over the work of the first semester, and the "A" division will complete the work of the year. This will probably necessitate a mid-year graduation in the near future.

Another matter which is of much interest in the High School at the present time is the preparation for Patron's Day, February twenty-first. Work done during the year will be put on exhibition, so that those who are interested may obtain an idea of the work of the High School. The two literary societies will hold a joint meeting that afternoon, at which the following program will be rendered: Piano solo—Pauline Collier, Essay—Curtis Collins, vocal solo—Genevieve Nutt, select oration—James Dolan, music—High school orchestra, periodical—Claire Campbell. original oration—Keith Campbell, piano duet—Hazedell Lambert and Clara Guest.

On Friday evening of last week in the High School chapel there were two basketball games. In the main game the Charleroi High school won from the Coroapolis High School by a score of 33 to 15; while in the preliminary game the Freshmen team won from the Atlas A. C. of Charleroi.

Last night the High School team played Waynesburg High School in the main game; and the Freshman again played the preliminary game, this time with a team from the Washington Avenue Brigade.

The Faculty promises an event for the near future, when they will play the first team.

their present supply of coal and will be closed down."

The coal in the southwestern corner of Greene county is not selling as rapidly and is not in as great demand as the coal in the eastern part of the county. However a new railroad line is being considered to be built up Dunkard crek that will be the means of opening up that coal. J. V. Thompson is the biggest coal owner in Fayette and still will be after he sells off thecoal he has along the river, so that he will profit the most from Greene county's developments.

TEN MILLION DOLLARS TO BE SPENT IN GREENE COUNTY COAL

Big Steel Company Likely Purchasers of Large Tracts Along the River

THOMPSON TO BENEFIT

Millionaire Coal Dealer of Uniontown Said to be Interested--Early Development Indicated

Before the first of April deals in Greene county coal lands amounting in the aggregate to about $10,000,000 will probably be concluded. Chief among the buyers will be two immense steel concerns operating in the Pittsburg district. Into the pocket of J. V. Thompson, the millionaire coal dealer of Uniontown it is reported will drop the bulk of the purchase money. The deals will be some of the biggest in the history of Greene county and will mean rapid development. In the various transfers will be represented from 15,000 to 20,000 acres of some of the best coal land in the entire bituminous region.

One monster steel concern whose identity is not to be made known yet, but which has big operations in the Pittsburg district is said to have acquired a coal tract of 2,000 acres at East Riverside in Greene county. The tract is south of the block of 4,200 acres owned by the Crucible Coal company at Rices Landing. Just above the Crucible another steel company has an option on 1,500 acres This is near the river, and there is little doubt among the coal men in closest touch with the situation, but that the deal will be closed for the purthase of it by the first of April. The name of this company is not given out, but like the purchaser of the 2,000 acre tract at East Riverside is said to have monster operations in the Pittsburg district.

Recently the Crucible Coal company purchased 2,000 acres of coal land adjoining their tract already owned at Rices Landing. This is the first of the big operations to be gotten under way in that region. The Crucible coal will be used of course by the Crucible Steel company.

Practically all of the Greene county coal will be for coking purposes. The steel companies are acquiring the land now as a matter of economy. It will not be long until the piece of Greene county coal goes u panother notch. Coal men say that in time Greene county coal will be selling higher than Fayette county coal ever did and that was at $3,000 an acre.

That Greene county is the coming coke center is the belief of John W. Boileau, expert coal man of Pittsburg. Mr. Boileau gives the following of the Connellsville bed of coal: "Allowing an average increase per annum of 5 per cent in 1930 the 901,000 acres would be entirely exhausted and the 40,000 coke ovens would be idle. Within the next eight years, without any increase at the plants, 79 coking plants will have exhaused

AGED MEN ENGAGE IN ARGUMENT

Octogenerian and "Boy" of Sixty Battle for Rights

COURT HEARS RESULTS

Charles McDonald an aged Midway resident, old soldier and for half a century a fire boss in mines along the Panhandle had many troubles this week.

He was convicted Thursday morning of simple assault and battery and fined $50 and costs. He refused to pay and after being placed in the custody of Sheriff Lutton was served with a capias in a suit for damages for personal injuries brought by Thomas Sneddon of Midway who was the private prosecutor in the assault and battery case. In the civil suit the aged veteran is held in $1,000 bail. He is now in jail.

Mr. Snedden, though his counsel, J. F. McFarland claims $5,000, by reason of the injuries inflicted upon him when Mr. McDonald struck him with the shovel handle on May 11, 1912.

Both defendant and plaintiff are elderly men. Mr. McDonald is 81 years old, while Mr. Snedden celebrated his 63rd birthday on the day he was assaulted by Mr. McDonald.

No other case at the present term has attracted more attention on account of the stand taken by Mr. McDonald, in refusing to pay the fine and costs. He insisted that he was unable to pay the fine and costs. He allowed himself to be taken in charge by Sheriff Lutton. He was placed in the prisoners' room just off the court room. His dinner was taken him there from a restaurant and every consideration shown him on account of his great age.

Mr. McDonald refuses to agree to settle his fine and costs or allow anyone to go his bond for payment.

NINE PERSONS NOW UNDER ARREST FOR CALIFORNIA MURDER

Six Suspects Apprehended by Detectives on Thursday and Friday Nights Are Remanded to the County Jail

Six more Italians have been arrested in connection with the killing of Santo Cicero, of Charleroi, and Frank Genoa, of Charleroi, at California on Christmas. The arrests were engineered by operatives of the Pinkerton detective agency and Constable H. B. Lake, of California. Antonia D'Anna and Salvatore Volpe Baruso were arrested Thursday night in West Brownsville, and committeed to jail at Washington Friday night in connection with the murder. At midnight last night Antonia Oglio, Pietro Guida, Onatus Angelo and Dominick Salaccia were arrested at California. Oglio is charged with being an accessory to the crime, while the others are being held as concerned in the mixup that resulted in the death of thet wo men. They will be taken to Washington today to jail. This makes nine arrests the detectives have made in the case, Girahmo Spalino, his wife, Vincenzo Spalino and Giovanna Spalino, were all arrested at Streator, Ill., on January 20, last.

LICHT PLACED AT LOCKUP DOOR

When weary wanderers, financially embarrassed, search longingly for a place to cast their tired forms henceforth, they will not be compelled by inexorable fate to travel the length and breadth of the town to locate that hospitable abiding place provided by the borough. Friday night a neat looking, bright light was placed in a commonding position over the doorway of the borough police station. Its starry directions will serve as a guide to shepherds in search of a haven. Chief of Police Albright and Patrolmen Murphy engineered the altogether admirable work of locating the adornment.

SATAN COMING TO THE COYLE MONDAY

One of the greatest moving picture representations that has yet been produced has been booked by Manager R. S. Coyle for Monday and Tuesday of next week. This is "Satan," in five reels which contains more than a hundred beautiful scenes and which cost upwards of $200,000 to produce, after four months continuous work. It is played by the most noted European artists and teaches a great lesson. Satan appears first in the Garden of Eden and passes progressively along from prehistoric times on up to the time of the Savior. He invokes the aid of science later on with its development, and at the last employe modern methods to wreck the lives of women and workers. In this is tanght a great sociological lesson. At the Olympic Theatre in Pittsburg recently "Satan" was shown to 14,000 people in one day, so popular was it as an attraction. The matinee begins at 1 o'clock.

Outlet to be Provided for Marianna Region Thr ugh Central Part of County

MONONGAHELA'S FINISH

Future of Down River "City" as Railroad Center Not Bright--Rights of Way Agents Busy

Rights of way were taken this week for the first time of the construction of a new railway line to be built between Van Emman station on the Chartiers valley railroad and Marianna. The new line, which it is understood will be built by the Pennsylvania Railroad with the Baltimore and Ohio co-operating, will be to cut off about 40 odd miles in the shipping of coal from the Marianna region. The Ellsworth branch, with the construction of the new road will probably pass much into disuse. Monongahela City's future as a railroad center does not seem bright.

At the present time all the coal from the rich Marianna region goes over the Ellsworth barnch to Monongahela and then by the Monongahela Division of the P. R. R. to Pittsburg. The Ellsworth connection forms a very roundabout route. Much time is wasted in shipments over it, and in the transfer at Monongahela. Now the Monongahela Division lines are kept pretty well crowded and will be more than crowded when the rich Greene county coal fields are opened up. This will make it practically impossible for the road to handle expeditiously the coal from both the Mariaan region and the up river points by the Monongahela valley line. It almost looks as though the shorter branch by way of Van Emman station for a Marianna coal outlet is a necessity.

It is understood to be the plan to branch off from Marianna almost directly west with the new road to Hackney Station. Surveys of this projected line were made some time ago. From Hackney Station the line would lead to Wheeling. This would afford a new and quicker route of transportation from Wheeling to Pittsburg. It would open up undeveloped northern Greene county and southern Washington county coal fields.

At the same time it is stated the Baltimore and Ohio railroad is making an effort to secure right of way through a route from the Cheat river that will enter Greene county. Some surprise is manifested at their action in dropping two Pennsylvania railroad men from their directorate. Whether that presages a actual break with the Pennsy is only a guess, yet it is believed to have much significance in the Greene county development.

Violated School Laws.

Joe Morrison and Mike Krutz of Union township were arrested this week and held for a hearing at Monongahela for refusing to send their children to school.

RURAL SOCIAL LIFE.

Those who keep tab on the rural news from over the county that are published from time to time in the columns of the Mail and which are for the most part gleaned from the various exchanges, can hardly fail to be impressed with the active social life in the small rural communities In church, social, fraternal and civic works some of the small communities are even more active and progressive proportionately than are the large towns, where community interests are sectional and divided

It has been lack of interest in social life in the past as well as lack of facilities, that made farm and rural life dull and unattractive This isolated condition, where life was one dreary round of prosaic duties in which the only break was a laborous trip over execrable roads to the nearest business center, weaned young people away from farm life. This effect was so widespread that people flocking to the towns has materially decreased the production of farm and garden products. Interest in farming has declined to such an extent that the cost of living has soared to figures heretofore undreamed of in this country. So widespread has been the exodus from the farm to the town that governmental aid is being invoked to encourage and promote social life in the rural communities with an object in view of making conditions more attractive and life more pleasurable.

In this county with the advent of improved roads, the telephone and the automobile, social conditions have been vastly improved. It has been found that the lecture course, woman's clubs, literary and civic societies can be conducted as profitably as in the more populous centers. Some of the small cross road towns are even paving their streets and organizing boards of trade. Instead of going abroad for pleasure and recreation, the people are promoting these at home. They are having old home celebrations, harvest homes, grange meetings, lectures by experts, corn vegetable and poultry shows, school and religious institutes and everything in advanced social and civic work. Life on the farm is made pleasurable by the co-operation of the people, whose example of mutual unselfish effort might well be emulated in the more populous centers. There are small hamlets in Washington county whose social and civic work proportionately exceeds that of any of the larger towns.

WHY INTERVENTION?

We hear much talk about the United States intervening in the rebellion in Mexico in order to protect American citizens and American intrests Stress is laid upon the protection for American citizens, but if the real object of the desired intervention is made known, it will be found that it is the "interests" that are making the loudest outcry for protection.

While it is possible that some American citizens may be killed or maltreated while in the zone of the rebellion, this is one of the risks and chances such citizens take, and if there is any one called for outcome the Mexican government will undoubtedly make reparation, just as our own country has done in the past. In most instances. American citizens in the troubled zones in Mexico have no difficulty in getting out of the country if they so desire. If they chose to remain they must take the chances and fortunes of war. It is the exploited interests for the most part in Mexico that are demanding intervention by the United States, and thus far there has been no real cause for this country to engage in war with its weaker neighbor, who is exerting every effort to quell the insurrection that has broken out.

PICKED UP IN PASSING

A Washington newspaper says that Judge J. A. McIlvaine was leaving the court house after the adjournment of court one day this week when he was stopped by a foreigner of rather intelligent appearance who expressed a dsire to visit a friend in the county jail.

The man was very insistent about the matter and finally the judge remarked that the proper person to see was the sheriff who was in charge of the jail and who would grant the necessary permission.

"I did see the sheriff," remarked the stranger, "and he wouldn't let me in. I sure would like to see that friend of mine for I want to slip him a little whiskey."

The judge walked on and it is supposed that the foreigner is still wondering at the ways of a supposedly free land where a man cannot give his imprisoned friend a "wee nippy."

Out on one of the rural routes of the county a story is told of a maiden well advanced in years who used to wait every day for the mail carrier, a bachelor of about her age and ask him if there was not a letter for her. Several weeks passed thus, but the anxiously expected letter did not arrive Finally one morning the mail carrier said to her: "Well, tomorrow you shall get a letter, if I have to write myself."

"That's right; do it," replied the old maid. "I shall be delighted to accept it."

"Well," said the mail carrier, "what do you want me to write—a business letter or a love letter?"

"If you mean business please write a love letter," was her blushing reply.

Old Sores, Piles, Burns and Scalds Heal Very Quickly

Piper Bros. and W. F. Hennings sells an ointment called San Cura that surely does do anything it is advertised to do or money back.

Thos. F. McCauley, Coopertown, Pa., cut his finger—blood poison set in—arm swelled terribly—friends despaired—said arm must come off. San Cura Ointment drew out water and dark pus—agony ceased—arm and hand soon as good as ever.

It quickly draws out all poison from sores, fever sores, ulcers, boils, carbuncles, cuts, burns, scalds and bruises and heals without leaving a scar.

For itching, bleeding or protruding piles, nothing can equal it, while thousands of cases are recorded where eczema, tetter and salt rheum were cured in the shortest possible time. San Sura Ointment is 25 and 50 cents a jar.

Everybody should use San Cura Soap, it's antiseptic, destroys all germ life, keeps the skin clear, soft and velvety, 25 cents. Thompson Medical Co., Titusville, Pa. —2

EXAMS OVER, REPORTS OUT AT HIGH SCHOOL

Students Preparing Now for Literary Program to be Given February 21--Interesting Happenings Told of

The first of last week the reports were given out, containing the average of four and a half months, or the first semester. In determining the grades the class work counts as two-thirds and the final examination as one-third. In order to pass without a condition it is necessary to obtain a final average of seventy-five per cent in each branch. Since the examinations, the Freshman and Sophomore classes have been redivided, those who have been promoted forming the "A" division, while those who have failed form the "B" division. This latter division will go and the "A" division will complete the work of the year. This will probably necessitate a mid-year graduation in the near future.

Another matter which is of much interest in the High School at the present time is the preparation for Patron's Day, February twenty-first. Work done during the year will be put on exhibition, so that those who are interested may obtain an idea of the work of the High School. The two literary societies will hold a joint meeting that afternoon, at which the following program will be rendered: Piano solo—Pauline Collier, Essay—Curtis Collins, vocal solo—Genevieve Nutt, select oration—James Dolan, music—High school orchestra, periodical—Claire Campbell, original oration—Keith Campbell, piano duet—Hazedell Lambert and Clara Guest.

On Friday evening of last week in the High School chapel there were two basketball games. In the main game the Charleroi High school won from the Coroapolis High School by a score of 33 to 15; while in the preliminary game, this time with a team from the Washington Avenue Brigade.

The Faculty promises an event for the near future, when they will play the first team.

their present supply of coal and will be closed down."

The coal in the southwestern corner of Greene county is not selling as rapidly and is not in as great demand as the coal in the eastern part of the county. However a new railroad line is being considered to be built up Dunkard crek that will be the means of opening up that coal. J. V. Thompson is the biggest coal owner in Fayette and still will be after he sells off the coal he has along the river, so that he will profit the most from Greene county's developments.
